

COUNTDOWN TIMER PREMSAIDULLA

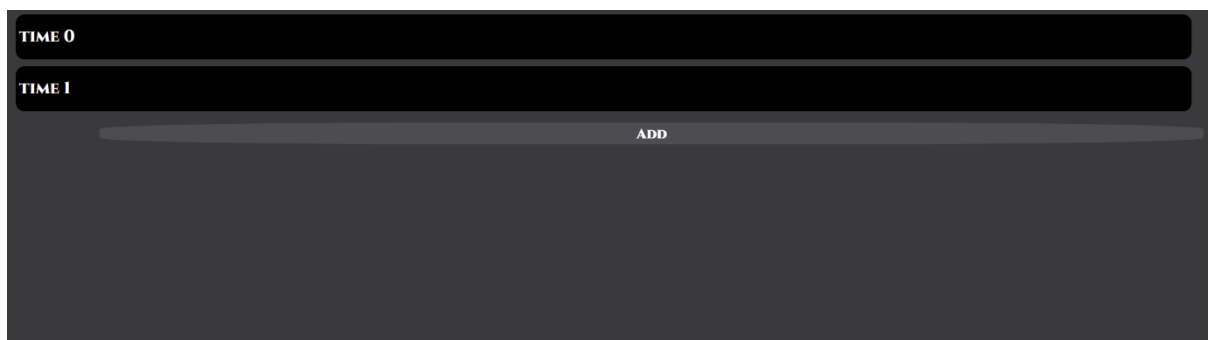

INITIAL PAGE :

- ➔ Starting page it displays a start button to start a timer when user clicks on it it directs to following adding timer page

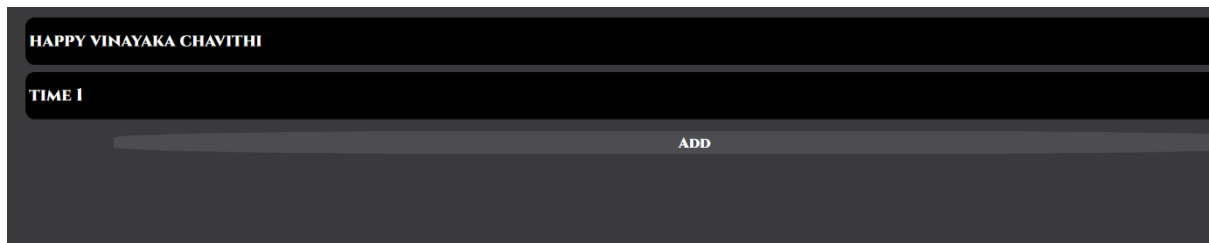

ADD TIMER ::

- ➔ Here user can add multiple timers by clicking add button
- ➔ if user clicks on timer he will directed to the followin time set-up page

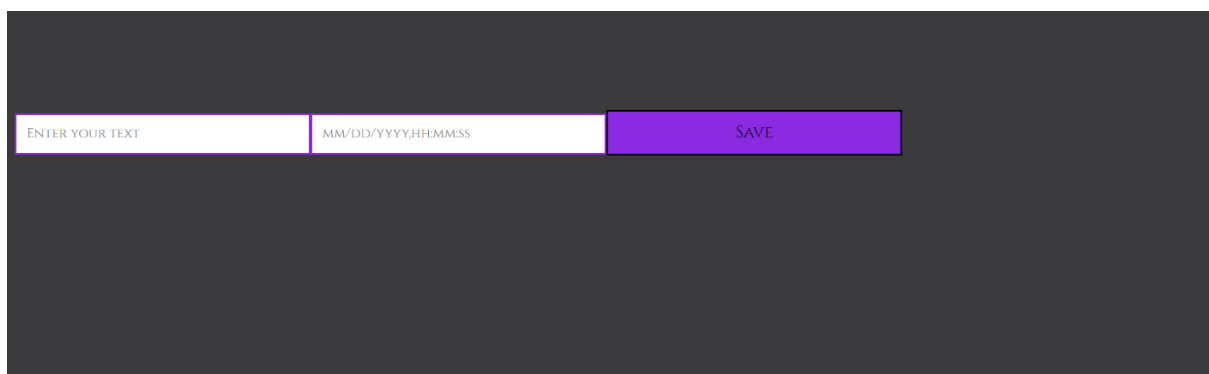

- ➔ Here when user enters a message for timer and time date in set-up page the required text is to be named for a timer like below

A screenshot of a timer setup interface. It features a dark background with a light gray header bar. The header bar contains the text 'HAPPY VINAYAKA CHAVITHI'. Below the header bar, there is a text input field with the placeholder text 'TIME I'. To the right of the input field, there is a button labeled 'ADD'.

TIME SET-UP:

- ➔ This was the page when user has to set up target time and message for target time in specified format mentioned in inputs ...
- ➔ And when user clicks on save button it will set up to that time from now on back to initial page

A screenshot of a time setup form. It has a dark background. The form consists of two input fields and a button. The first input field is labeled 'ENTER YOUR TEXT' and the second is labeled 'MM/DD/YYYY,HHMMSS'. To the right of these fields is a green button labeled 'SAVE'.

COUNTDOWN LAYOUT & DESIGN::

- ➔ Here if user set up target time then it will direct to countdown timer page when user clicks on timer otherwise it will take them to timer set-up page
- ➔ It calculates from now to future and displays remaining time with some animation and stroke dash effect ..

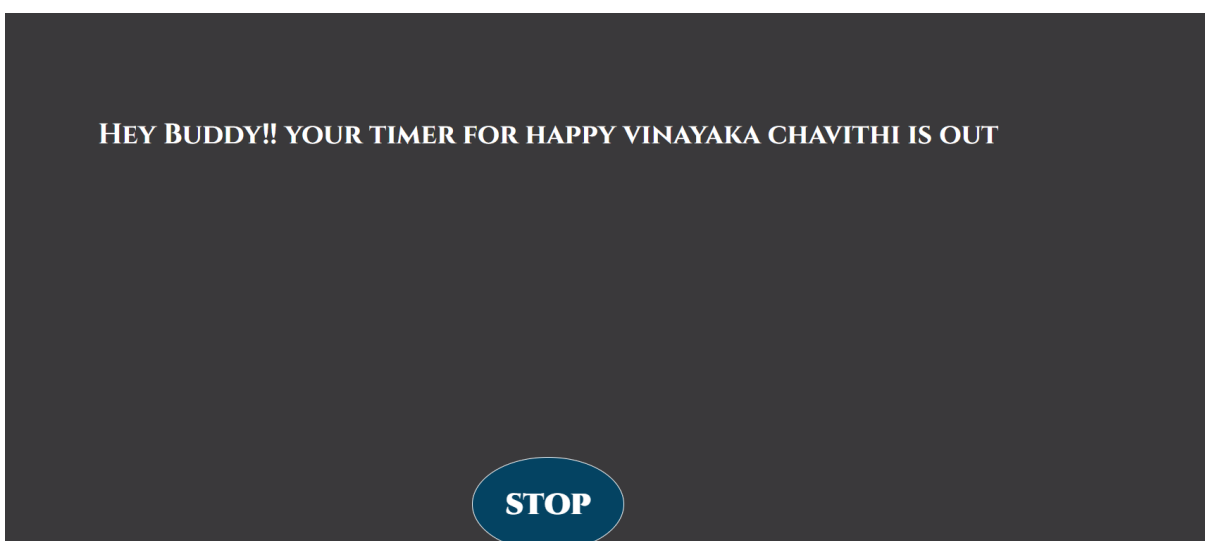

TIMES UP MESSAGE WITH SOUND :::

When times up It will displayed with message that user entered in time set-up page along with a stop button and an audio alert

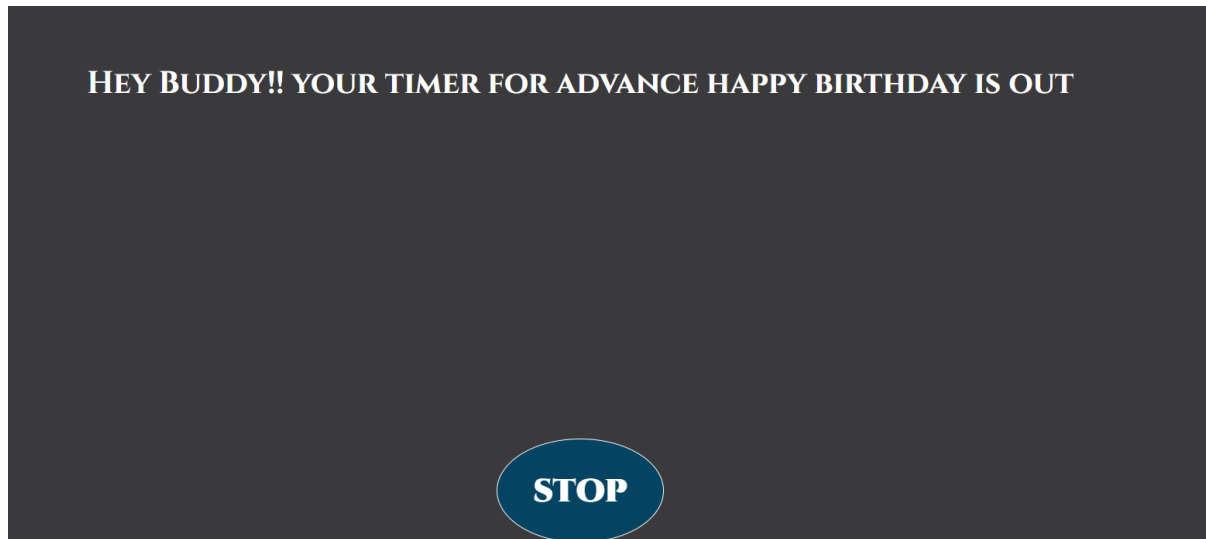

➔ I had given around 3 – 4 alarm sounds for this it will played when times up like a alarm .. unfortunately I cant show u the sound ..

,

STOP BUTTON TO STOP THE TIMER ::

- ➔ Stop button ::
- ➔ Here user can able to stop timer by click on stop button if it done it stopped timer sound and get back to add timer page ...

Thank u
